**COSMOS**
- IP Address: 127.0.0.1
- Port: 7777

**GMSEC**
- IP Address: 127.0.0.1
- Port: 61616

**TESTER 1**
- IP Address: 127.0.0.1
- Port: 22222

**TESTER 2**
- IP Address: TBD
- Port: TBD

**Data**

**User**

**Database Server**

**Note:**
Tester 1 communicates via TCP/IP for initial testing, and upon completion of the wrapper, it will take the place of a physical satellite in terms of sending telemetry via COSMOS.
